Financial Software

Seamless Software. Simplified Solutions. Superior Support

Power your business with our leading software solutions

Customized origination solutions

We deliver front-end e-commerce software to companies of all sizes. Established businesses and start-ups alike rely on us for custom-tailored mission-critical solutions.

User-friendly back office solutions

From leases and daily interest loans to revolving lines of credit and syndications, our back office solutions can manage a wide variety of financial products.

Why partner with us? Here are three reasons:

ACCESS TO EXPERTS

We don't outsource customer support. So when you contact us, you get guidance from seasoned in-house experts with an in-depth understanding of our software solutions.

FLEXIBLE SOLUTIONS

Our software is designed to accommodate the needs of any business, of any size. And if your business grows, we can scale up and grow with you.

IMPROVED BOTTOM LINE

Our solutions automate repetitive, time-consuming manual processes. This means efficiencies go up while costs go down.

Streamline your operations, increase efficiencies, and reduce costs with our specialized software solutions:

Full asset finance lifecycle functional support, delivered in component parts as a point solution or in whole on an enterprise basis. Infinity can be deployed as stand-alone back-end software, coupled with our origination platform for full lifecycle support, or integrated with your existing package or custom origination solution.

Origination software that can be customized to suit your unique business processes, adaptable to your changing needs. Our solution streamlines all aspects of origination, helping you achieve optimal operational efficiency through automation.

A comprehensive, cloud-based management and accounting solution for asset financing. Our application services all types of equipment and vehicle contracts, covering the entire process from booking and funding through contract management to contract termination.

Post-origination loan monitoring software that helps working capital lenders monitor and improve their commercial loan portfolio's health and performance. Covarity streamlines, standardizes and automates the collection and analysis of borrower financial information.

For over 30 years, we have been helping businesses streamline their operations and reduce costs with our flexible software solutions. From small boutique firms to large financial institutions, we work with businesses of any size. Customers throughout North America and across the globe trust us to meet their unique needs.

Unlock your company's full potential.
