

# It's time to EVOLVE.

Modernize. Innovate. Save money.

## What is EVOLVE?

A comprehensive program that empowers you to tackle your app modernization or innovation challenge while harnessing the power of the Azure cloud.

### This program includes:

High value, reduced price: Accelerate your app up to **87% discount**

### Choose a track that's right for you:

#### Web app modernization

Modernizing legacy apps to Azure PaaS Services.

#### Containers with Kubernetes approach

Transforming an existing on-premise app to a container-based app using Azure Kubernetes Service.

## How does it work?

EVOLVE encompasses a three-phase journey. In each phase, you get:

### Phase 1: Discovery

- 1 Free In-a-Day 1:1 workshop**
  - Focus on app modernization or Cloud Native applications.
  - Includes kickoff, whiteboard design session and hands-on lab.
- 2 Free app modernization and data assessment**
  - In-depth analysis and assessment of your company's applications, covering potential cost saving opportunities, ROI, and more.
  - Your Microsoft partner will identify which apps to prioritize for Cloud modernization, and which compute model is appropriate (Kubernetes or PaaS).
  - Based on the assessment results, your partner will schedule an architectural design session for you.

### Phase 2: Architectural design session

- 1 Free one-day envisioning session conducted by your Microsoft partner or a Microsoft CSA.**
- 2 Deep dive analysis of Phase 1 assessment report to determine next steps.**
- 3 Alignment of your business objectives with specific Microsoft software applications that can help you meet and capitalize on your goals.**

### Phase 3: AIM | Accelerate

- 1 Guidance with enablement from your Microsoft partner every step of the way as you modernize/innovate your app**
- 2 Six-week proof-of-concept: configure and deploy your app based on the appropriate compute model:**
  - Web app modernization (modernize legacy apps using PaaS)
  - Cloud-native (transform an existing on-premise app to a container-based app using Azure Kubernetes Service.)
- 3 After six weeks:**
  - The app will run and be supported in the production environment.
  - Application handover to client resources.
- 4 Access to additional free resources, including:**
  - Cloud skills challenge
  - ESI
  - Fast Track

Your investment for all 3 phases: **\$5K CAD**

(up to \$37,500 CAD total program value)

## Why EVOLVE?

- 1 Free skilling, assessment report & envisioning session**
- 2 Support at every step of the journey**
  - Learn which compute model makes sense
  - Get advice on which applications need modernizing
  - Get assistance with configuration, deployment and refactoring

## Why modernize on Azure?
